

# \$2,210 more per patient!

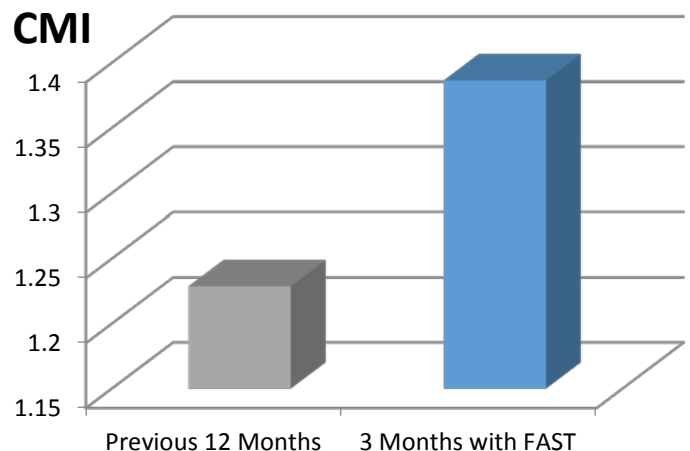

**“My nurses have become much more skilled and confident thanks to the ease of use of the software. Even though we experienced an unrelated drop in comorbidity tiering during the beta period, IC’s FAST system increased our CMI by more than 15%.”**

Rick Tichenor, CEO of a large inpatient rehab facility:

- 40+ bed free standing unit in North Texas
- Previous 12 month average CMI: 1.2286

## **Rick’s facility has been using FAST for 3 months. Here are the results:**

- Avg. FIM Admit Score:
  - **Dropped** from 59.39 to 52.43
- Avg. Reimbursement Per Patient:
  - **Increased** by \$2,210
- Facility Reimbursement:
  - **Increased** Medicare patient reimbursement by 12.8%!
